

Deepening the Trade and Economic Cooperation Between China and EU

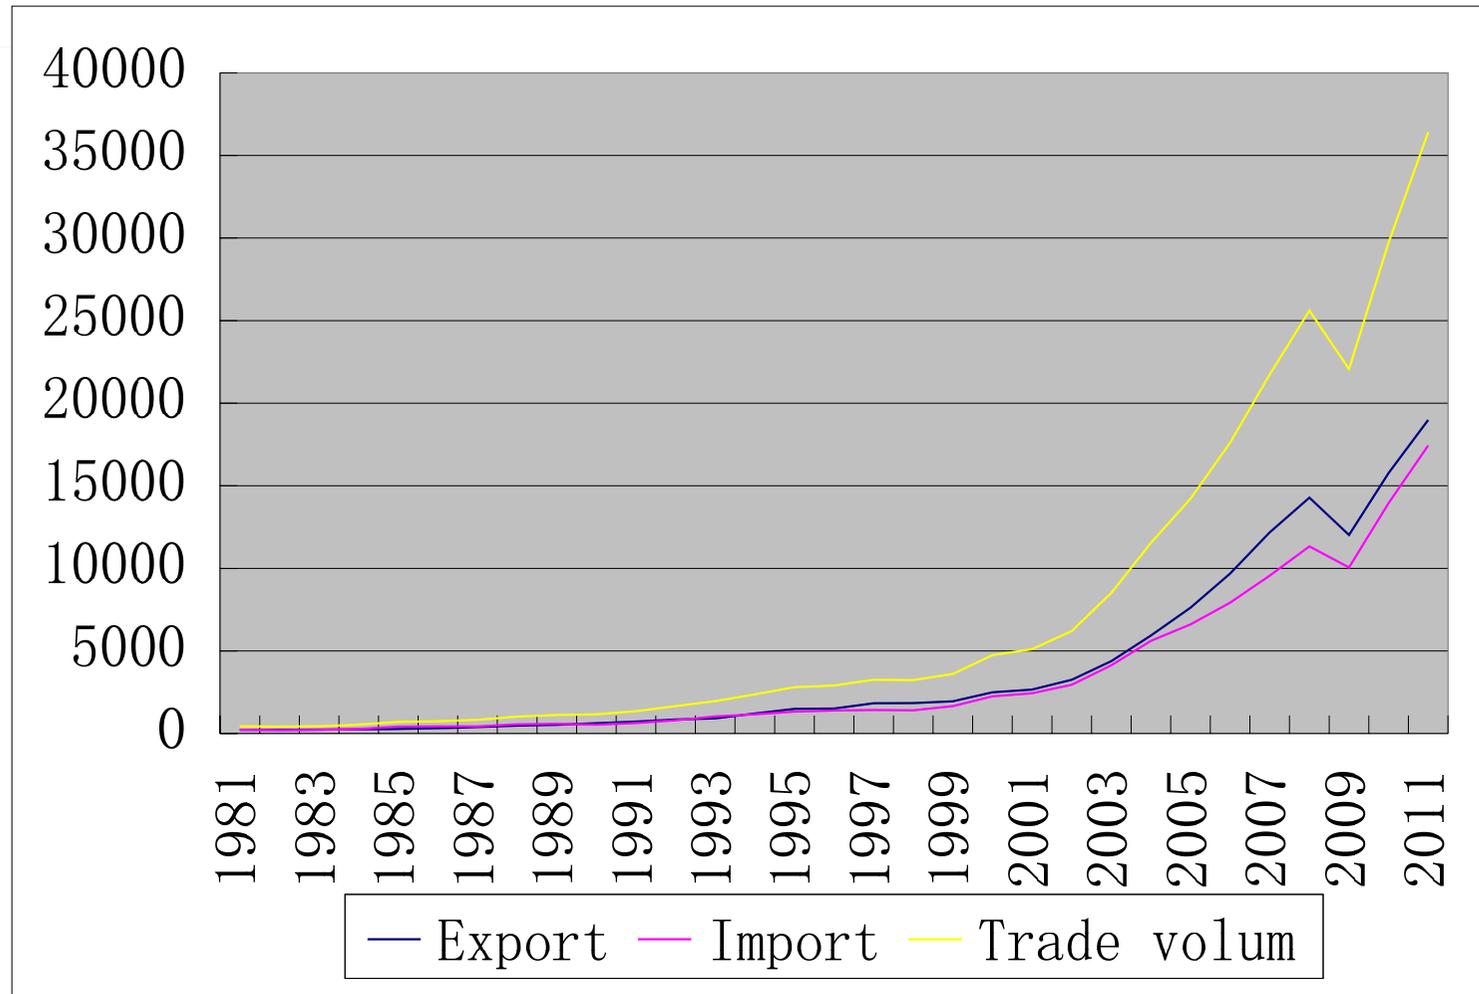

Dr. CHEN Xin

State of the Union conference

May 9, 2012, Florence, EUI

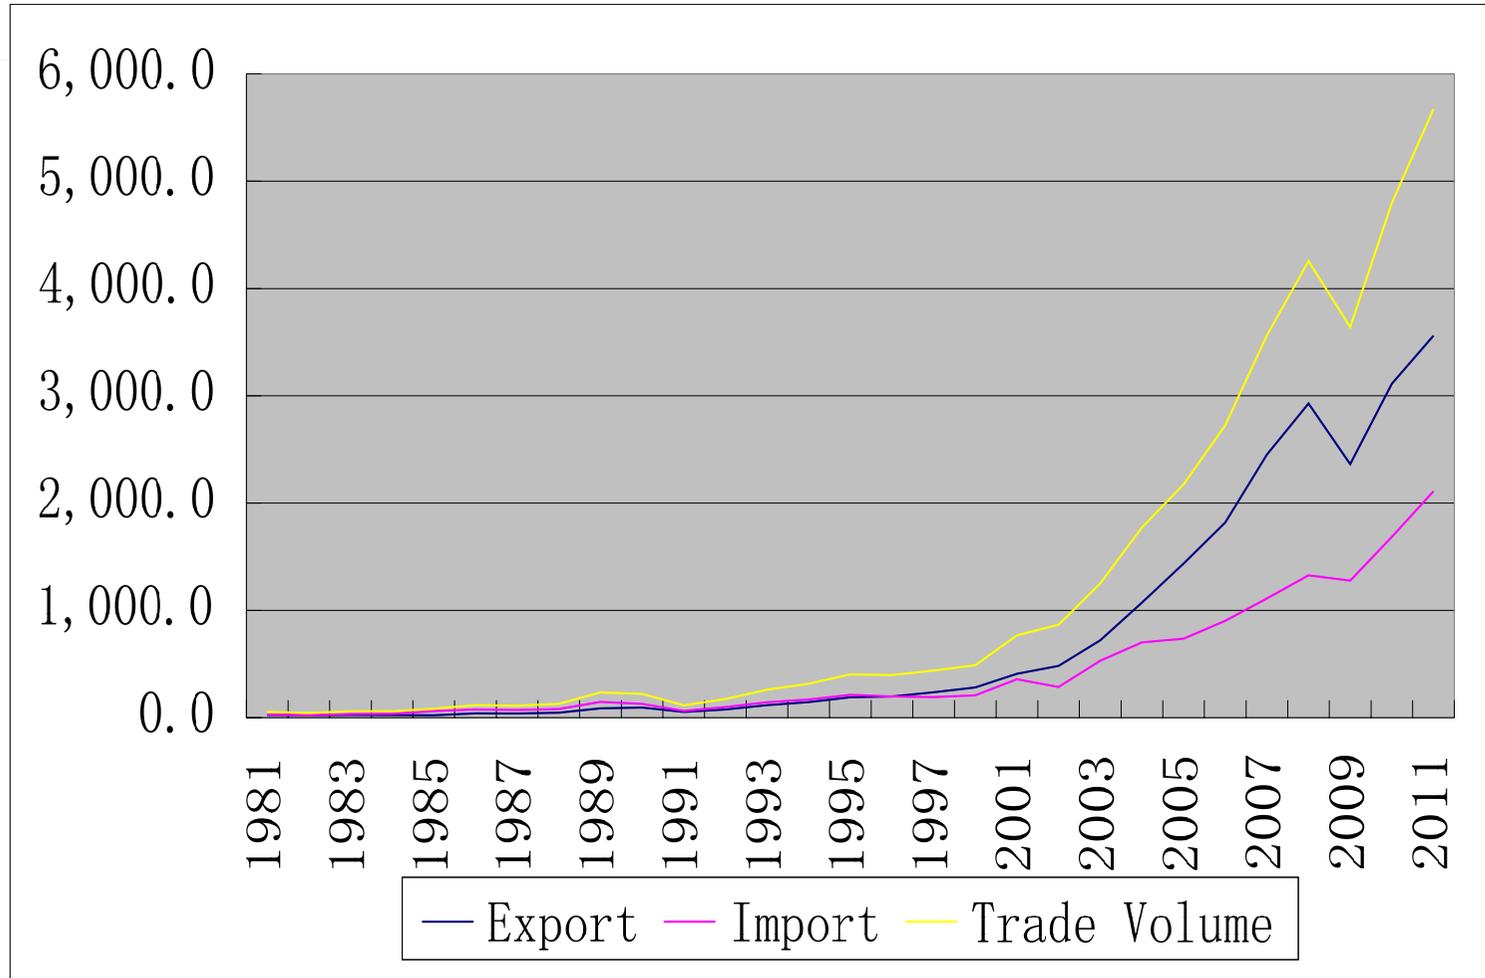

China's Trade in dynamic

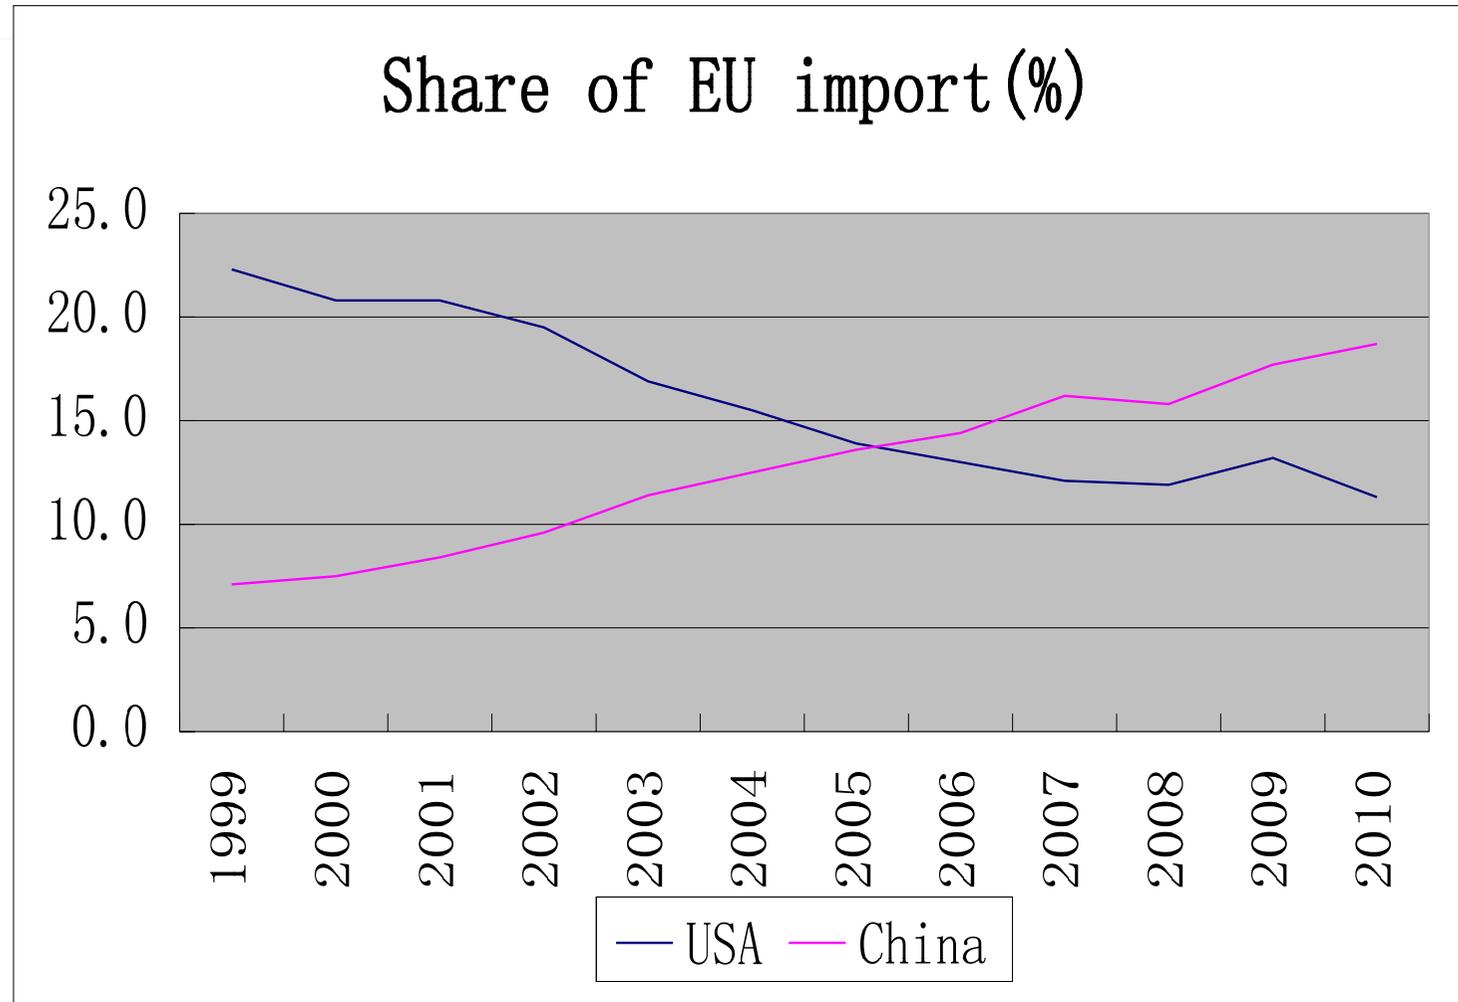

similar in China-EU Trade

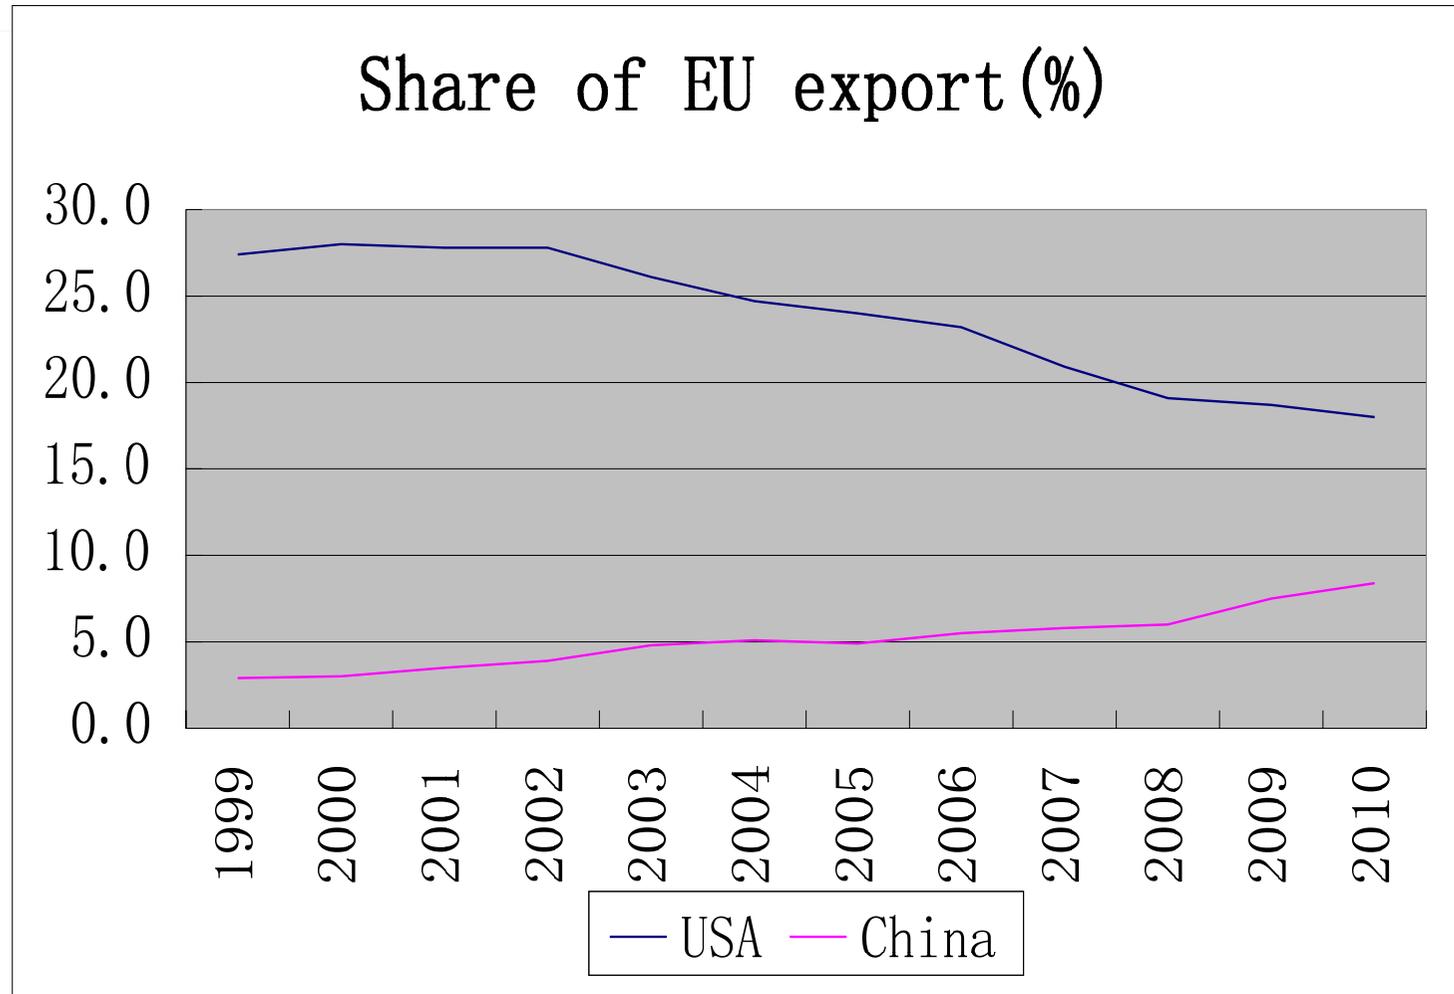

China's share in EU's import is increasing

Eurostat

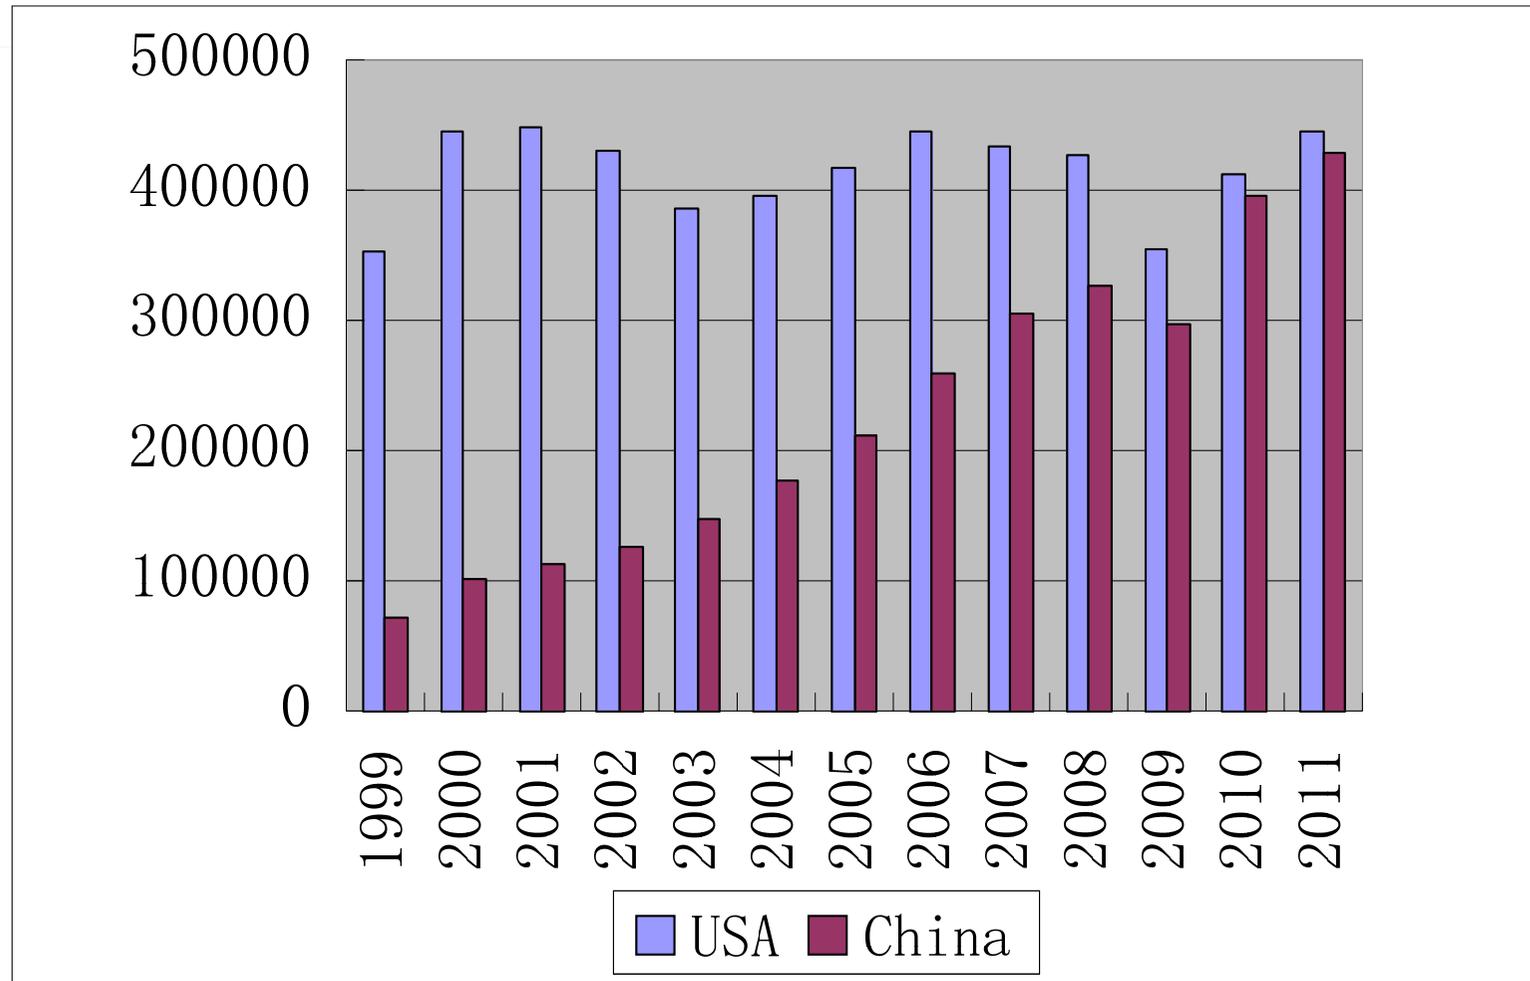

and China's share in EU's export is increasing

Eurostat

EU trade with US and China

Million Euro. Eurostat.

And China will soon become
EU's biggest trading partner

Which means:

Deeper interdependency

China is facing challenge of Globalization

- From export driven and investment driven growth to stimulate domestic consumption
- From industrial economy to Knowledge based economy

Opportunity for EU-China Cooperation

- When EU' design meets China's production
- When EU's technology meets China's market
- When EU's expertise meets China's social and economic development

When and How EU catches China's fast train

- Cooperation in China's urbanization
- Cooperation in sector fields, like energy, food safety, environment and clean technology, ect
- And a true strategy for long term cooperation
